4-1-77

Dear Sir,

On April 21st, 1976 I made a request for opening of my files as per FIA. On March 1st, 77 I called this service (202-324-3000) and was told that my file is being processed and will be sent to me in 2 to 3 weeks. As I have not heard for a month about the matter I called this service (FIA) on 3-31-77. The employ first couldn't locate my application but finally found it and told me that my file is being censored (dilated) for classified material but he could not tell me how long it will take. Min. extension is 238. I requested only for information for the period of 1940-45. And even so the pace of work or efficiency is disappointing - lower than in Stalin's times concentration camps by starving inmates. Here it is by highly payed employes, blaming "military secrets" of 35 old skeletons in closets!!. No doubt they are connected with apprehended gestapo spy spies & comerades. To compromising to some persons and companies in this country and abroad.

It would be a good idea too, to get the skeletons out of the closets in connection with 6 (six) murders and tell the truth. Continued murders, "suicides", wild stories fed by our Establ. make this wonderful country a laughing stock of the World. Even as foreigner how I feel ashamed for U.S.

Tax paying sucker
with like
(american dissenter)
